Computer Integrated Manufacturing Book Jayakumar Pdf

Computer-integrated manufacturing is used in automotive, aviation, space, and ship building industries. The term "computer-integrated manufacturing" is both a method of manufacturing and the name of a computer-automated system in which individual engineering, production, marketing, and support functions of a manufacturing enterprise are organized.

Computer-integrated manufacturing - Wikipedia

The Computer Integrated Manufacturing Open System Architecture (CIMOSA) was proposed in 1990 by the AMCIE consortium to provide an open systems architecture that specifies both enterprise modeling and enterprise integration required by CIM environments.
