What is an E-commerce Application? The term e-commerce, as we think of it today, refers to the buying and selling of goods or services over the Internet. For example, you may think of Amazon, which provides online shopping for various product categories, such as books, music, and electronics. This form of e-commerce is known as electronic retailing, or e-tailing, and usually involves the ...

With the most Internet users of any country, China is the world's largest and fastest-growing e-commerce market. Capitalizing on opportunities, however, is becoming harder for consumer-facing companies as e-commerce penetration rates plateau in high-tier cities and as digital attackers, especially in the online-to-offline space, cut into incumbents' margins.

The metric system was developed during the French Revolution to replace the various measures previously used in France. The metre (sometimes spelled "meter" in American English) is the unit of length in the metric system and was originally based on the dimensions of the earth, as far as it could be measured at the time. The litre (also spelled "liter"), is the unit of volume and was defined as ...
